2025 PRODUCT GUIDE

# CORN

**74-103 DAY CORN**

A yield of dreams is coming to a field near you.

**22C74** RR2

RELATIVE MATURITY

**74**  
DAY

- Fixed ear type that will favor higher plant populations
- Keep this hybrid in the northern region
- This hybrid will thrive in your better soils

**21N78** RR2

RELATIVE MATURITY

**78**  
DAY

- Great root strength and extremely responsive to high-yielding environments and irrigation
- Dent-by-dent hybrid with fast drydown
- Plant at high populations for positive yield response
- Very solid late-season plant health for an early hybrid

**77P79** VT2PRO

RELATIVE MATURITY

**79**  
DAY

- Strong adaptability to northern soils
- This genetic package is sure to perform on your tough, variable and ideal soils
- The “Goldilocks of Stature” - not too tall, not too short. Just right!

**13Z80** CONV

NEW

RELATIVE MATURITY

**80**  
DAY

- Incredible yield performance for our earliest conventional
- Up to 20 kernels around and girth not seen in older hybrids
- Average Goss's Wilt tolerance
- Strong defensive agronomics for most soil types
- Open husk for quick fall drydown

DUAL-PURPOSE

**70D80** VT2PRO

RELATIVE MATURITY

**80**  
DAY

- True game-changing yield performance for an 80-day hybrid
- Attractive late-season appearance
- Girthy ear with a loose, open husk
- Reliable product on variable and ideal soils

DUAL-PURPOSE

**71V81** VT2PRO

RELATIVE MATURITY

**81**  
DAY

- Good girth and Goss's Wilt rating
- Ideal fit on tough and variable soils
- Great stalk and roots for an extended harvest window
- Very early to flower and reach black layer
- Versatile placement makes this cross a go-anywhere hybrid

**74L81** VT2PRO

RELATIVE MATURITY

**81**

DAY

- Semi-flex ear with good high-density tolerance
- Widely adapted with solid stalks and roots
- Early flowering with flared husks for dependable drydown
- Avoid drought-prone soils

NEW

**19H83** CONV

RELATIVE MATURITY

**83**

DAY

- East to west across our region
- Very good Goss's Wilt tolerance, snap, roots and stalks
- Solid early vigor with very good drought tolerance
- Bulletproof consistency for placement on tough acres

DUAL-PURPOSE

**22T83** RR2

RELATIVE MATURITY

**83**

DAY

- This Roundup Ready® Corn 2 cross can handle all soil types extremely well
- The consistent ear size maintains yield up and down the rows
- Greensnap stands no chance with this hybrid's stalk and root strength

DUAL-PURPOSE

**74F83** VT2PRO

RELATIVE MATURITY

**83**

DAY

- Very good early vigor and drought tolerance
- Broadly adapted across our east-to-west geography
- Best suited for tough and variable, low-producing acres

**73S84** VT2PRO

RELATIVE MATURITY

**84**

DAY

- Excellent agronomics and a good choice for variable soils
- This hybrid displays strong emergence and seedling vigor
- A medium-statured plant with excellent stalk and root strength
- Very consistent ear development at various planting populations
- Impressive disease tolerance including Northern Leaf Blight and Goss's Wilt

DUAL-PURPOSE

**13A85** CONV

RELATIVE MATURITY

**85**

DAY

- Above average stalk and root quality for harvest flexibility
- Medium-tall hybrid that is widely adapted east to west
- Late season staygreen makes for a great-looking hybrid
- Place this on that droughty piece of ground and see what happens
- Keep off salty soils

**25K85** RR2

RELATIVE MATURITY

**85**  
DAY

- Exceptional stalk and root strength for maturity
- Excellent staygreen and intactness
- Outstanding top-end yield potential and fast drydown

**75G85** VT2PRO

RELATIVE MATURITY

**85**  
DAY

- Impressive performance across high- and low-yield environments
- Very adaptable hybrid with proven ability to move both south and west
- Flowers early and flares husk to enhance drydown
- Exhibits very good staygreen and intactness

**78R85** VT2PRO/ASR

RELATIVE MATURITY

**85**  
DAY

- Higher top-end yielding hybrid with very girthy ears and fast drydown
- Medium-statured hybrid that moves well from central ND into MN
- Very good emergence with strong early vigor
- Uniform ear development with deep kernels
- Caution under drought conditions

**16S86** CONV

RELATIVE MATURITY

**86**  
DAY

- Impressive top-end yield potential
- We love this medium-statured hybrid with very good stalks and roots
- We hate to use the term “Race Horse” but this one is

**71P86** VT2PRO

RELATIVE MATURITY

**86**  
DAY

- Very good plant vigor and good drought tolerance set this hybrid up for success
- Low-to-moderate populations – excellent for maximizing your marginal acres
- Really nice agronomics with greensnap, Goss’s Wilt tolerance and intactness
- Girthy, semi-flex ear that holds up with western movement

**76Q86** VT2PRO

RELATIVE MATURITY

**86**  
DAY

- Very good stalk and root package
- Good performance across tough environments for yield
- Strong Goss’s Wilt rating
- This hybrid expresses a lot of girth

NEW

**74Z87** VT2PRO

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY

**87**  
DAY

- Good for early planting and reduced tillage environments
- Excellent top-end yield for ideal and variable soils
- Extremely girthy ear and a solid stalk for highly-managed acres

NEW

**79K88** VT2PRO

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY

**88**  
DAY

- Medium-stature plant that goes across our footprint
- The kind of solid agronomics that help you sleep at night
- Good staygreen, Goss's Wilt tolerance, drought, greensnap—this hybrid has it all
- Likes populations at 32-36K, but shows its ability to flex at 28K

**13D91** CONV

RELATIVE  
MATURITY

**89**  
DAY

- Tremendous drought tolerance makes it a great option for "desert" fields
- Outstanding stalk and roots
- Very attractive hybrid with good fall appearance
- Steady yielder across all environments

NEW

**64C89** PWERA

**POWERCORE**  
Enlist  
REFUGE ADVANCED

RELATIVE  
MATURITY

**89**  
DAY

- Exciting new PowerCore® Enlist® with top-end yield
- Very good Goss's Wilt and greensnap tolerance
- Semi-flex ear that adjusts well to all populations
- Good late-season intactness with open husk

DUAL-PURPOSE

**74J89** VT2PRO

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY

**89**  
DAY

- Impressive early vigor for the north
- Strong yield performance across all environments
- Upright leaf structure fits well in narrow rows
- Good candidate for tough acres

DUAL-PURPOSE

**74R89** VT2PRO

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY

**89**  
DAY

- Handles tough and variable environments across a wide footprint
- Performs well at low-to-moderate populations
- Solid agronomics across stalks, greensnap and early vigor
- Very good drydown

DUAL-PURPOSE

**73K90** VT2PRO/ASR

RELATIVE MATURITY

**90**  
DAY

- Strong emergence and excellent seedling vigor that can handle cold soils
- Excellent top-end yield performance when kept in-zone and north
- Girthy, flex-ear style suited to all planting populations
- Avoid drought-prone soils

**77H90** VT2PRO/ASR

RELATIVE MATURITY

**90**  
DAY

- Very good early vigor; well suited to early planting
- Medium-statured hybrid
- Average Goss's Wilt rating, so keep off those hot Goss's spots
- Solid agronomics with solid stalk and root ratings
- All-around hybrid - place anywhere and forget about it

**27F91** RR2

RELATIVE MATURITY

**91**  
DAY

- Travels well east to west while maximizing yield potential across soil types
- Well-rounded disease package, including Goss's Wilt
- Displays flex, along with open husks for quick drydown
- Dependable all-around hybrid that won't let you down

**72A91** VT2PRO

RELATIVE MATURITY

**91**  
DAY

- Showcases outstanding yield potential with a very good disease package
- Good ear flex and drydown with open husks
- Very good drought, greensnap and Goss's Wilt tolerance

**74V91** VT2PRO/ASR

RELATIVE MATURITY

**91**  
DAY

- Performs well in zone and south
- Strong agronomics and field appearance
- Good drought tolerance
- Fits perfectly in our lineup with variable and ideal soil placement

**16S92** CONV  
**26S92** RR2  
**76S92** VT2PRO

RELATIVE MATURITY

**92**  
DAY

- Very good early season vigor with good stress tolerance
- Widely adapted across varying environments
- Will perform best in its maturity zone, but has good southern movement
- Fantastic yielding product with fast drydown

DUAL-PURPOSE

**74B92** VT2PRO/ASR

RELATIVE MATURITY

**92**  
DAY

- Exceptional yield potential with strong agronomics and late-season plant health
- Very good stalks and roots with above-average staygreen and intactness
- Semi-flex ear style with deep kernels and good grain quality
- Excellent Goss's Wilt and Northern Leaf Blight tolerance

**88K93** SMARTSTAX /ASR

RELATIVE MATURITY

**93**  
DAY

- SmartStax® option for your corn-on-corn acres
- High yield potential in low-yield environments
- Good test weight on large girthy ear with good tip fill
- Superior early vigor for reduced tillage situations
- Excellent choice for your silage acres

DUAL-PURPOSE

**72Q94** VT2PRO

RELATIVE MATURITY

**94**  
DAY

- Taller plant with excellent agronomics and yield
- Consistent performance over your entire field
- Impressive stalk and roots, with late-season intactness and staygreen
- Dual-purpose hybrid with excellent silage potential
- Flared husk with fast drydown for maturity

DUAL-PURPOSE

**74M94** VT2PRO/ASR

RELATIVE MATURITY

**94**  
DAY

- Absolute top-end performance two years running
- 97-day yield with 94-day drydown
- Very good greensnap, early vigor and test weight
- Average Goss's Wilt tolerance limits westward movement

DUAL-PURPOSE

NEW

**19L95** CONV

RELATIVE MATURITY

**95**  
DAY

- High-yielding conventional hybrid for the mid 90-day grower
- This cross is a perfect fit with growers using a variable-rate prescription
- Throws a big, flexed, deep-kerneled ear

DUAL-PURPOSE

**2LF95** RR2/SILAGE

RELATIVE MATURITY

**95**  
DAY

- Silage only! Drop your population by 10% to maximize tonnage
- Highly digestible starch makeup in the kernel – the geese will starve for lack of 'left-over' kernels
- Solid agronomics. A go-anywhere type hybrid
- Set your silage harvest at three-quarter inch cut for better quality

SILAGE

**71R95** DGVT2PRO

**DroughtGard**<sup>®</sup>  
HYBRIDS  
VTDoublePRO<sup>®</sup>  
RIB COMPLETE

RELATIVE  
MATURITY

**95**  
DAY

- Good option for your tough-to-variable acres
- Medium-tall hybrid with higher ear placement
- Very good agronomics with solid late-green intactness
- Flex ear that works well in variable rate populations under 34K

**78G95** VT2PRO

**VTDoublePRO**<sup>®</sup>  
RIB COMPLETE

RELATIVE  
MATURITY

**95**  
DAY

- Top performance across a wide range of environments
- Produces long, flex ears with high kernel row counts
- Exhibits very good staygreen and late-season intactness
- Nicknamed the “Screamer” because of its high yield potential

DUAL-PURPOSE

**65C96** PWERA

**POWERCORE**  
Enlist  
REFUGE ADVANCED

RELATIVE  
MATURITY

**96**  
DAY

- Exceptional showing across all yield levels
- Very good disease package with great late-season stalks
- Top-notch silage option that competes well with later-maturing hybrids
- Continued performance from our first PowerCore<sup>®</sup> Enlist<sup>®</sup> option!

DUAL-PURPOSE

**76Y96** VT2PRO/ASR

**VTDoublePRO**<sup>®</sup>  
RIB COMPLETE

RELATIVE  
MATURITY

**96**  
DAY

- Excellent top-end yield potential across all soil types
- Shows very strong emergence
- Very good drought tolerance for tougher acres
- Excellent early vigor for early planting and reduced tillage acres

DUAL-PURPOSE

**85W96** SMARTSTAX  
/ASR

**SmartStax**<sup>®</sup>  
RIB COMPLETE

RELATIVE  
MATURITY

**96**  
DAY

- Best-suited for Minnesota, manage for Goss’s Wilt in the Dakotas
- Greensnap, test weight and intactness all back up this hybrid
- Sets a new standard for mid 90-day yield potential
- Taller plant with higher ear placement

DUAL-PURPOSE

**74A97** TRE/ASR

**Trecepta**<sup>®</sup>  
RIB COMPLETE

RELATIVE  
MATURITY

**97**  
DAY

- Excellent top-end yield that we’re excited about
- Semi-flex for moderate planting populations
- Very good stalks, roots and greensnap tolerance
- Good Goss’s Wilt tolerance
- Solid staygreen and late-season intactness

NEW

**78P98** TRE/ASR

**Trecepta**  
RIB COMPLETE

RELATIVE  
MATURITY  
**98**  
DAY

- Exceptional performance!
- Large girthy ear with deep kernels
- Robust hybrid with very good Goss's Wilt tolerance
- Late flowering, fast-drying hybrid for both grain and silage markets

DUAL-PURPOSE

NEW

**85Q98** SMARTSTAX /ASR

**SmartStax**  
RIB COMPLETE

RELATIVE  
MATURITY  
**98**  
DAY

- New yield levels for a 98-day SmartStax®, with excellent northern movement
- All-around agronomics with a solid defensive package
- Keep central and east with some greensnap
- Great drought, vigor, test weight and roots
- Average Goss's Wilt tolerance

**75T99** VT2PRO/ASR

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY  
**99**  
DAY

- Very strong yield potential over a wide geography from east to west
- Semi-flex ear type with good stress tolerance
- Good foliar healthy and late-season plant appearance
- This hybrid's ability to flex makes it a perfect option for variable rates

**2LF01** RR2/SILAGE

**Roundup Ready**  
CORN 2

RELATIVE  
MATURITY  
**101**  
DAY

- Silage only! Drop your population by 10% to maximize tonnage
- Robust, leafy-floury hybrid
- 100% floury kernels for a boost in starch digestibility
- Offers big tons to maximize your silage acres

SILAGE

**73P01** VT2PRO/ASR

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY  
**101**  
DAY

- Our leading 100-day option with tremendous girth, which earned it the nickname "Girthy Pig"!
- Flex ear style adapts well to moderate populations
- Fast late-season drydown
- Impressive yield stability across all yield environments

DUAL-PURPOSE

NEW

**75V01** VT2PRO/ASR

**VTDoublePRO**  
RIB COMPLETE

RELATIVE  
MATURITY  
**101**  
DAY

- Solid hybrid all the way around, tested and true
- Podium finisher in our yield trials three years running
- This safe, medium-statured hybrid moves north well
- Big, girthy ear that stays consistent in drought
- Excellent general-use hybrid. Put it out and forget about it

NEW

77Z03 TRE/ASR

Trecepta®  
RIB COMPLETERELATIVE  
MATURITY103  
DAY

- Huge top-end full-season hybrid
- Slender ear that fits well from 32-37K populations
- Good Goss's Wilt tolerance
- Shines on medium- and high-yielding soils with plenty of fertility
- Maintains great health late in the season!

DUAL-PURPOSE

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted, and no dicamba formulations are currently registered for such use in the 2024 season. Please follow <https://www.roundupreadyxtend.com/pages/xtendimax-updates.aspx> for status updates.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology.

B.t. products may not yet be registered in all states. Check with your representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements. DroughtGard® Hybrids with RIB Complete® corn blend the refuge seed may not always contain DroughtGard® Hybrids trait.

Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Plants that are not tolerant to glyphosate, dicamba, and/or glufosinate may be damaged or killed if exposed to those herbicides. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready®, SmartStax®, Trecepta®, VT Double PRO® and XtendFlex® are registered trademarks of Bayer Group. Herculex® is a registered trademark of Dow AgroSciences LLC. Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. Agrisure Viptera® is a registered trademark of a Syngenta group company. LibertyLink logo® and LibertyLink® are trademarks of BASF Corporation. ©2024 Bayer Group. All Rights Reserved. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association.

Seed containing a patented trait can only be used to plant a single commercial crop. It is unlawful to save and replant Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, and XtendFlex® soybeans. Additional information and limitations on the use of these products are provided in the Technology Stewardship Agreement and the Bayer Technology Use Guide: [tug.bayer.com](http://tug.bayer.com). U.S. patents for Bayer technologies can be found at the following webpage: [cs.bayerpatents.bayer.com](http://cs.bayerpatents.bayer.com).

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, Corteva Agriscience's product launch process for responsible launches of new products includes a long-standing process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end-users must take all steps within their control to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit [www.biotradestatus.com](http://www.biotradestatus.com). Excellence Through Stewardship® is a registered trademark of Global Stewardship Group.

Seeds containing the Enlist, Herculex and PowerCore traits are protected under numerous US patents. Seeds containing patented traits can only be used to plant a single commercial crop and cannot be saved or replanted. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements detailed therein ([www.corteva.us/Resources/trait-stewardship.html](http://www.corteva.us/Resources/trait-stewardship.html)). To plant Enlist, Herculex and PowerCore seed, you must have a limited license from Corteva Agriscience. In consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Always read and follow herbicide label directions prior to use. Enlist® products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist™ crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products. Enlist corn contains genes that confer tolerance to 2,4-D and -fop herbicides. 2,4-D and -fop herbicides will damage or kill crops that are not tolerant to 2,4-D or -fops.

IRM - Properly managing trait technology is key to preserving it as a long term crop protection tool. Growers who fail to comply with IRM requirements risk losing access to this product. To help preserve the effectiveness of B.t. corn technologies, growers planting B.t. corn technologies are required to follow an IRM Plan. Consult the Corn Product Use Guide for appropriate refuge configuration options. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology Use Agreement and Product Use Guide. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements. For complete details on IRM requirements for hybrids with Bt technology, including refuge examples and important information on the use of insecticides on refuge and Bt corn acres, please consult appropriate Product Use Guide. Go to [www.corteva.us/Resources/trait-stewardship.html](http://www.corteva.us/Resources/trait-stewardship.html) to download the latest Corteva Agriscience Corn Product Use Guide

Enlist E3® soybean seeds containing the Enlist® trait can only be used to plant a single commercial crop. It is unlawful to save and replant Enlist E3® soybeans. Additional information and limitations on the use of these products are provided in the Corteva Agriscience Technology Use Agreement and Enlist® Soybean Product Use Guide. U.S. patents for Corteva Agriscience technologies can be found at the following webpage: [www.corteva.us/Resources/trait-stewardship.html](http://www.corteva.us/Resources/trait-stewardship.html).

Enlist Duo® and Enlist One® herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One are the only 2,4-D products authorized for use with Enlist crops. Consult Enlist herbicide labels for weed species controlled. Always read and follow label directions. Enlist E3® soybeans were jointly developed by Corteva Agriscience and MS Technologies, LLC. ®™ Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of Corteva Agriscience. PowerCore® multi-event technology developed by Corteva Agriscience and Monsanto. Roundup®, Roundup Ready®, Roundup Ready 2 Technology and Design, and PowerCore® are registered trademarks of Monsanto Technology LLC. Liberty Link® and the Water Droplet Design® are registered trademarks of BASF. Enlist®, Colex-D®, and Refuge Advanced® are trademarks of Corteva Agriscience and its affiliated companies. Excellence Through Stewardship is a registered trademark of Excellence Through Stewardship.

Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® corn and soybeans. Consult Enlist® herbicide labels for weed species controlled. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and counties; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY; and have additional subcounty restrictions in AL, GA, TN and TX, while existing county restrictions still remain in FL. All users must check "Bulletins Live! Two" no earlier than six months before using Enlist One or Enlist Duo. To obtain "Bulletins," consult [epa.gov/esp/](http://epa.gov/esp/), call 1-844-447-3813, or email [ESP@epa.gov](mailto:ESP@epa.gov). You must use the "Bulletin" valid for the month and state and county in which Enlist One or Enlist Duo are being applied. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

IT IS A VIOLATION OF FEDERAL AND STATE LAW TO USE ANY PESTICIDE PRODUCT OTHER THAN IN ACCORDANCE WITH ITS LABELING. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CORN AND SOYBEANS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS, IN ADDITION TO CIVIL AND/OR CRIMINAL PENALTIES. Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at [www.traitstewardship.com](http://www.traitstewardship.com).

POWERCORE® is a registered trademark of Bayer Group. POWERCORE® multi-event technology developed by Corteva Agriscience and Bayer Group. Liberty®, LibertyLink® and the Water Droplet Design are registered trademarks of BASF. ®Roundup and Roundup Ready are registered trademarks of Bayer Group. Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. B.t. products may not yet be registered in all states. Check with your seed representative for the registration status in your state. The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies, L.L.C.

™® Trademarks of Corteva Agriscience and its affiliated companies.

Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are labeled for preemergence and postemergence use with Enlist E3® soybeans.

2,4-D choline | Glyphosate | Glufosinate

- Convenient proprietary blend of 2,4-D choline and glyphosate
- The two modes of action work together to deliver control of yield-robbing weeds and help prevent resistance

- Straight goods 2,4-D choline with additional tank-mix flexibility
- Provides additional tank-mix flexibility with Durango® DMA® herbicide, Liberty® herbicide and other qualified tank-mix products, allowing for a customized weed control program to fit each farm

## ENLIST® WEED CONTROL SYSTEM OVERVIEW

### On-Target Application

- 90% less drift than traditional 2,4-D
- 96% less volatile than 2,4-D ester

# WHEAT

## BUNS

HARD RED SPRING WHEAT  
MEDIUM - LATE MATURITY

- Outstanding yield performance in private and university trials for four straight years
- A broad-acre variety with profuse tillering
- Shows tremendous tolerance to Bacterial Leaf Streak and FHB
- Considered average in protein content with medium-late maturity

## ROLLS

MEDIUM MATURITY

- Outstanding yield performance in multiple data sets
- Strong data versus industry standards
- Yields with BUNS, especially Grand Forks and north
- Improved test weight and protein compared to BUNS

### BUNS DATA

**BUNS AND ROLLS. Worth their 'wheat' in gold.**

# SOYBEANS

**00.7 - 1.8 MATURITIES**  
The genetics and traits you can rely on.

NEW

# 25XF007 XTENDFLEX

RELATIVE MATURITY

00.7

- Complete disease package, SCN, IDC and Rps1c
- 65% win rate vs. 18X008N for yield
- Carries excellent height for this relative maturity

# 23XF009 XTENDFLEX

RELATIVE MATURITY

00.9

- Great overall disease package including IDC tolerance
- Superior lodging resistance with average plant height
- Does not have SCN protection so place carefully

# 24XF01 XTENDFLEX

RELATIVE MATURITY

0.1

- Fantastic disease package makes this variety widely adapted
- Carries SCN protection and above-average SWM tolerance
- Extra height makes this a great choice for lighter and variable soils
- Adjusts well to any row type, making it suited for a variety of environments
- Solid IDC scores for this high-yielding bean!

# 23XF01 XTENDFLEX

RELATIVE MATURITY

0.1

- Next-generation yields for an early RR2 XtendFlex® offering
- Solid IDC score with a Rps1k Phytophthora gene
- Will be widely adapted for years to come
- Does not have SCN protection – test soils before placing

# 22XF03 XTENDFLEX

RELATIVE MATURITY

0.3

- Works well in heavy soils
- Solid IDC tolerance and has shown good SWM resistance
- Place carefully as it doesn't carry cyst nematode protection
- A tall, branching bean that will fill all rows quickly
- Our #1 selling RR2 XtendFlex® variety demonstrates its adaptability.

# 24XF04 XTENDFLEX

RELATIVE MATURITY

0.4

- Taller plant type with excellent lodging resistance
- Excellent IDC tolerance
- Carries SCN and BSR resistance
- Attractive bean with next-level yield

NEW

## 19EN04 ENLIST E3

RELATIVE MATURITY

0.4

- Outstanding yield year-over-year, even in challenging IDC environments
- A workhorse for our lineup that still consistently performs
- Maintains height even in tough conditions

NEW

## 25XF05 XTENDFLEX

RELATIVE MATURITY

0.5

- Strong yield data across all testing areas
- Maintains good plant height across all soil types
- Stacked Phytophthora genes paired with phenomenal field tolerance
- Will need to manage placement due to average IDC scores
- Excellent drought tolerance

## 22XF06 XTENDFLEX

RELATIVE MATURITY

0.6

- Medium-tall, semi-bushy plant type
- Carries both SCN and Rps1c genes to anchor a strong disease package
- Outstanding yields year-after-year

## 24XF07 XTENDFLEX

RELATIVE MATURITY

0.7

- Great SCN option with Peking
- Medium height with excellent lodging resistance
- Improved SWM scores with solid IDC
- Widely adapted from east to west

## 21XF07 XTENDFLEX

RELATIVE MATURITY

0.7

- Equipped with strong SCN and BSR resistance
- Average IDC scores and travels west well
- Medium height with great lodging resistance
- Perfect for all row widths

## 23XF09 XTENDFLEX

RELATIVE MATURITY

0.9

- Attractive plant type with a lot of branching
- Solid disease package, SCN, Rps1c and IDC
- Watch placement in fields with a history of white mold

NEW

**25XF10** XTENDFLEXRELATIVE  
MATURITY**1.0**

- Top-end disease package
- #1 yielder across 12 trial locations
- Well-adapted for variable soils
- Yield stability carries this bean north to south and east to west!
- Robust disease package makes this bean easy to place

**23EN10** ENLIST E3RELATIVE  
MATURITY**1.0**

- Outstanding IDC tolerance with Rps1k
- Carries good height with longer lateral branches
- Keep off SWM-prone fields

NEW

**25EN13** ENLIST E3RELATIVE  
MATURITY**1.3**

- Another great Peking line
- Checks all the boxes: stacked Phytophthora genes with industry-leading field tolerance, IDC, SCN and SWM
- Fantastic east-to-west adaptation
- Will handle your tough ground

NEW

**25XF13** XTENDFLEXRELATIVE  
MATURITY**1.3**

- Strong performance from north to south and east to west
- Top-end disease package
- Stacked Phytophthora genes plus initial data tells us good SWM tolerance
- Will be an “easy button,” go-anywhere variety
- Yields with 22XF14, but is earlier maturing

**22XF14** XTENDFLEXRELATIVE  
MATURITY**1.4**

- Taller RR2 XtendFlex® variety with excellent lodging resistance
- Rps3a for tough Phytophthora soils plus above-average SWM scores
- Outperforms industry standards for yield

NEW

**24EN16** ENLIST E3RELATIVE  
MATURITY**1.6**

- Yields with perennial champion 2216E
- Peking with a strong Phytophthora package
- IDC to handle most soils
- Broadly adapted east to west

# 22XF18 XTENDFLEX

RELATIVE MATURITY

1.8

- Tall line that will handle most soil types\_
- Solid disease packages\_
- Widely adapted for the southern end of our footprint\_

## THE POWER OF VALUE-ADDED CLOSED LOOP CONTRACTS.

Increase your farm's profitability by growing a premium product with a no risk-contract.

**HANA** CONVENTIONAL

RELATIVE  
MATURITY

00.9

- Yields competitive to existing traited lines
- Best suited for 15" or narrower row spacing
- Works best in higher populations
- Consider using a seed treatment which may help combat SCN

NEW

**AYA** CONVENTIONAL

RELATIVE  
MATURITY

0.7

- Equal yield to 2106E in our 2023 trials
- Carries Rps3a for Phytophthora protection and very good IDC
- Does not have SCN protection - consider using a seed treatment
- Good height with some branching ability
- Recommended for all row spacings

NEW

**WILMA** CONVENTIONAL

RELATIVE  
MATURITY

1.0

- Equal yield to 2108E in our 2023 trials
- Stacked Rps3a, Rps1c Phytophthora genes are foundation of excellent disease package
- Does not have SCN protection - consider using a seed treatment
- Good height with some branching ability
- Recommended for all row spacings

## CONTRACT DETAILS:

- **"Take-all" contract.** Every bushel is taken after minimal standards are met (truckload quantities).
- **No transportation costs for you.** Soybeans picked up from YOUR bins!
- **Testing proves minimal yield drag.** Four years of testing shows yields that are comparable to traited soybeans.
- **Superior premium!** Payments made on gross bushels (less any FM).

# PETERSON SELECT SEED TREATMENT

**PROTECTION WHEN AND WHERE YOU NEED IT.**  
It checks ALL the boxes for disease and insect protection.

**SOYBEANS**

## FUNGICIDE

- 4 active ingredients
- Protection from top seedling diseases
- Custom formulation to fit our regional farms
- Includes Polymer for improved coverage and flowability
- Compatible with inoculant to round out your protection offering
- Red color
- Low use rate at 2.45 fl oz/cwt

A CALL IS GREAT. A CARD IS NICE.  
BUT OUR **"THANK YOU"**  
CLEARS SNOW AND ICE.

**WE CAN'T THANK YOU ENOUGH, BUT WE SURE LIKE TO TRY.**

Turn the page for our **Promise+ Rewards** options for this year...  
and to see how grateful we are for your early seed order.

# PROMISE+ REWARDS

**YOUR EARLY ORDER.  
OUR THANKS.  
IT'S THAT SIMPLE.**

When you commit to order seed before December 15, we'll thank you for putting your trust in us with Promise+ Points redeemable for valuable merchandise.

## EASY AS 1-2-3:

- 1** Sign an early order commitment by December 15, 2024.
- 2** Pick your payment method:
  - 0% financing with your local bank
  - Cash, including a cash discount based on payment date
  - John Deere Financing
- 3** Bask in our gratitude! Earn Promise+ points based on your commitment level. Select your reward with your dealer before January 15, 2025.

## BONUS POINTS + CARRY-OVER

**Loyalty Bonus:** earn an extra Promise+ point when you commit at level 3 or higher AND plant 100% of your corn and soybean acres with us.

**Tier Jumper:** earn one point for each tier you jump (maximum of 5 points) over your historic-high level.

**1 Year Point Carry-Over:** carry point(s) forward one year to stack points and earn a larger reward. Requires equal or greater seed purchase year-over-year.

VIEW THE PROMISE+ POINTS LEVEL YOUR ORDER WILL EARN YOU.

USE YOUR PHONE'S CAMERA TO SCAN THE QR CODE.

## BOTE® INFLATABLE PADDLE BOARD

HD Aero 11'6" Classic Cypress Inflatable Paddle Board

Includes:

- 1 - HD Aero 11'6" Inflatable paddle board
- 1 - 3-Piece adjustable SUP paddle
- 1 - 10" Removable aero center fin
- 1 - Pair of slide-in aero rac receivers
- 1 - Removable aero paddle sheath
- 1 - Aero repair kit
- 1 - Hand pump
- 1 - Travel bag

BOTE

## DARKHOUSE® SPEARING PACKAGE

Package includes:

- Fish's 42" folding ice saw w/case
- Belle River standard stainless steel 7-tine spear
- Spike PRO ice tongs
- Handmade fish decoy by local carvers

## MILWAUKEE® 5-TOOL KIT

M18 FUEL 18v combo kit includes:

- 2904-20 - 1/2" hammer drill/driver
- 2953-20 - 1/4" hex impact driver
- 2821-20 - SAWZALL reciprocating saw
- 2730-20 - 6-1/2" circular saw (Tool Only)
- 2735-20 - LED work light
- M18 & M12 multi-voltage charger
- 2- M18 Redlithium XC5.0 batteries

## LE CREUSET® COOKWARE SET

7-piece enameled cast iron set includes:

- 4-1/2 qt. Round Dutch oven
- 5-1/4 qt. Signature roaster
- 2-1/4 qt. Braiser
- 10-1/4" Signature skillet
- Square skillet grill
- Multiple color options available
